## Successful Cases

# Value Summary

## A differentiated experience to attract more customers

KettyBot redefines customer experience with an eye-catching way to attract customers and a smart, thoughtful way to serve them

## Lower training and management costs

simple operation and user-friendly interface, set up and use in hours with minimal training

## Manpower shortage is no longer a problem

Multiple delivery mode can well assist stores in completing tasks such as demo delivery, and delivering snacks, which will free up human workers from dull and duplicate tasks.

## Robot-human collaboration to improve service and efficiency

Human workers collaborate with KettyBot in way that they can both do what they are best at. KettyBot is ready to assist and improve humankind working experience.

## Simplify your cleaning processes

improve your workflow, pre-set program enables CC1 to start operating automatically and immediately with stable cleaning efficiency and higher quality of cleaning

## Unified management & IoT platform

Users can manage different models of Pudu robots simultaneously and analyze the operation of the robots through Pudu management platform.

## Successful Cases – Al Othaim Mall

# PUDU Introduction

# PUDU Introduction

## Pudu Robotics

In 2016, Pudu Technology was founded in Shenzhen as a national high-tech enterprise that specializes in research, design, production, and sales of commercial service robots. After seven years of development, Pudu Technology has established hundreds of service points worldwide, with business in over 60 countries and regions, delivering more than 56,000 units. It has become a leader in the field of commercial service robots globally. In the age of intelligence, Pudu Technology will continue to uphold the "inventor's spirit" and solidify its technology, refine its products, create truly useful robot products, and enhance the efficiency of human production and life.

\* Relevant statistics as of December 2022

### Mission

Use robots to improve the efficiency of human production and living

### Vision

To become the world's strongest commercial service robot company

BE INVENTIVE

BE CUSTOMER CENTRIC

THINKING IN THE LIGHT OF FIRST PRINCIPLES

BE ENTERPRISING & ACCOUNTABLE

PURSUING FOR THE ULTIMATE

MOVING FAST

BE OPEN-UP

EMBRACING CHANGE

# Scale Advantage

## Globalization

Pudu Robotics has established a business presence in North America, Europe, East Asia, Asia-Pacific, the Middle East and Latin America. The products have been exported to more than 60 countries and regions around the world, covering more than 600\* cities worldwide. Pudu Robotics has established a trustworthy international brand image and become one of the representative enterprises of China's "intelligent" manufacturing abroad.
