Industry Overview

Global hotel continues to recover while occupancy rates continue to lag

The hotel industry

The business of providing lodging and accommodation services to travelers and tourists. The hotel industry includes various types of lodging establishments, such as hotels, resorts, motels, inns, and bed and breakfasts.

From 2019, Global hotel performance continues to recover; Adrs continue to drive global earnings, while occupancy rates continue to lag.

Market size of hotel & resort industry worldwide

From 2013 to 2022, with a forecast for 2023

Data sources: STR

What's influence hotel occupancy ?

78% of millennials would rather spend their money on experience than on things.

Optimizing hotel service experience Improve hotel occupancy

Hotel cleaning service

Intelligent hotel service applied scenario

Scenario scheme 1: Hotel reception service

Show daily promotion

New and Innovative Marketing Methods

The large mobile advertising screen provides a broader, more frequent, eye-catching, and precise marketing method for hotel, allowing the hotel's brand, promotional activities, special price room, etc., to reach more customers and further improve the conversion rate of marketing campaigns.

Ketty 18.5" Ads screen, variety promotion

Promotion more accuracy

- Utilizing intelligent LCD screens to attract customers from all angles
- Large advertising screens better fitting the customer's perspective
- Combining with speakers to significantly attract family-style customers
- Supporting multiple scenarios, allowing for customizable media size and content
- Supporting various types of media, such as audio, video, images, and links

Weight	38KG
Charging time	4.5H (support self-charging)
Battery life	> 8H
Speed	0.5-1.2m/s

PUDU2 32" Capacitive touch advertising screen

The interaction is diversified

- Seamlessly integrated mobile robots with advertising screens
- Display a variety of videos and showcase promotional content in real time.
- Indoor mobile advertising machine can bring message directly to target audience
- Product promotion, brand promotion, and marketing display, easily achieve marketing objectives

Weight	39KG (PUDU2) +13KG (AD Screen)
Charging time	8H
DPI	1920*1080
AD Screen power supply	Via robot charging port

Mobility promotion establish technology image

1000 CNY/Month	Comprehensive operating costs	5000 CNY/Month
0	Promotion commission	Typically around 2% of gross profit margin
1.11 CNY/person	Effective contact cost	1.80 CNY/person
Only one-time purchase cost	Product cost	Cost increases linearly with update frequency
Supports mobility, with no fixed coverage limits	Coverage	The general coverage area is within the range of 0-5m
Easy edition of ads on merchant management platform	Easy use	Manual replacement requires manual participation, which is time & labor consuming
Make a profound impact through mobile +technology	Attractive ability	Mainly graphic and lacking creativity, easy to forget
Mobile advertising screen robot		Traditional fixed advertising screen

82

Number of human-robot interactions
per robot per day

2.85

Average daily running distance
2.85km per robot

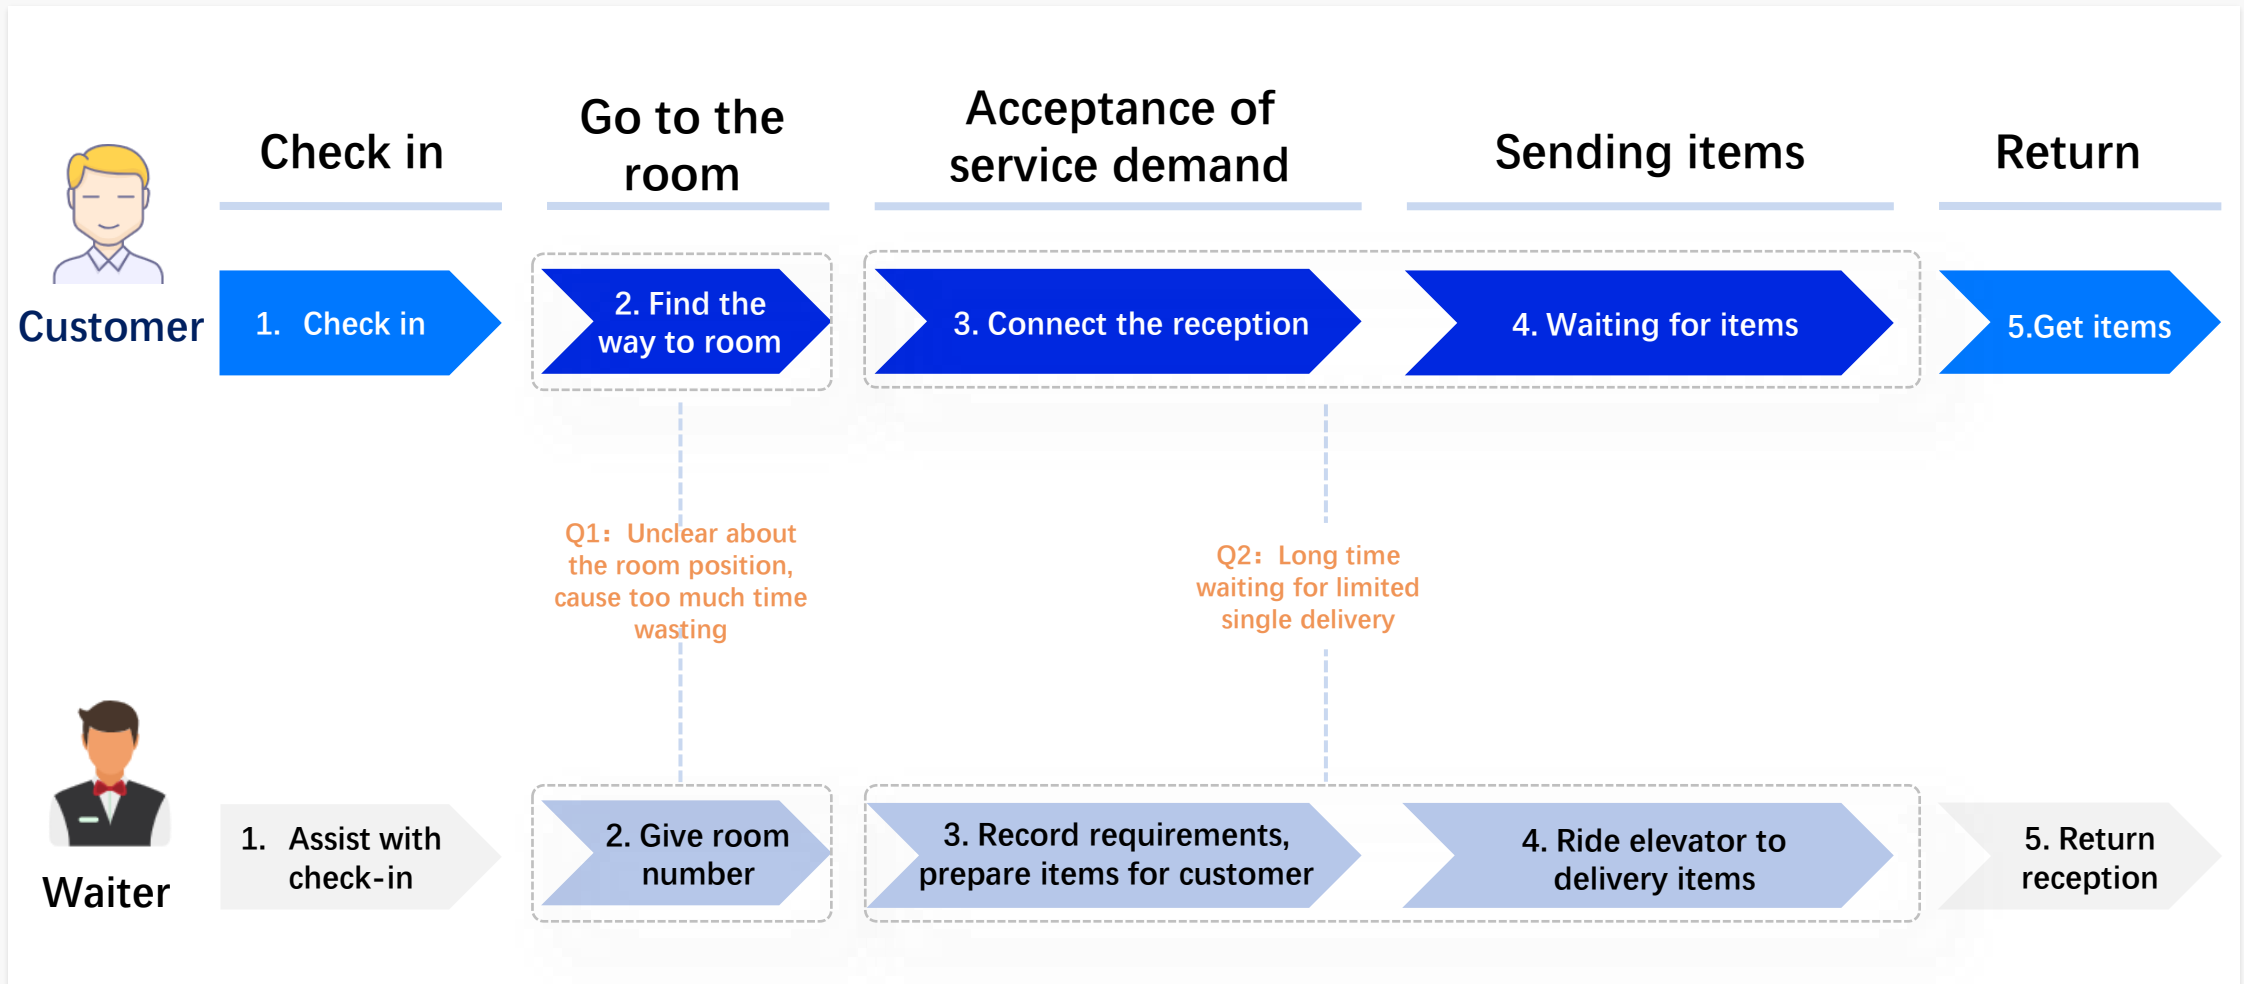

1000

recognizes 550 people on a daily basis, and over **1000 people are covered** by weekend advertisements per robot

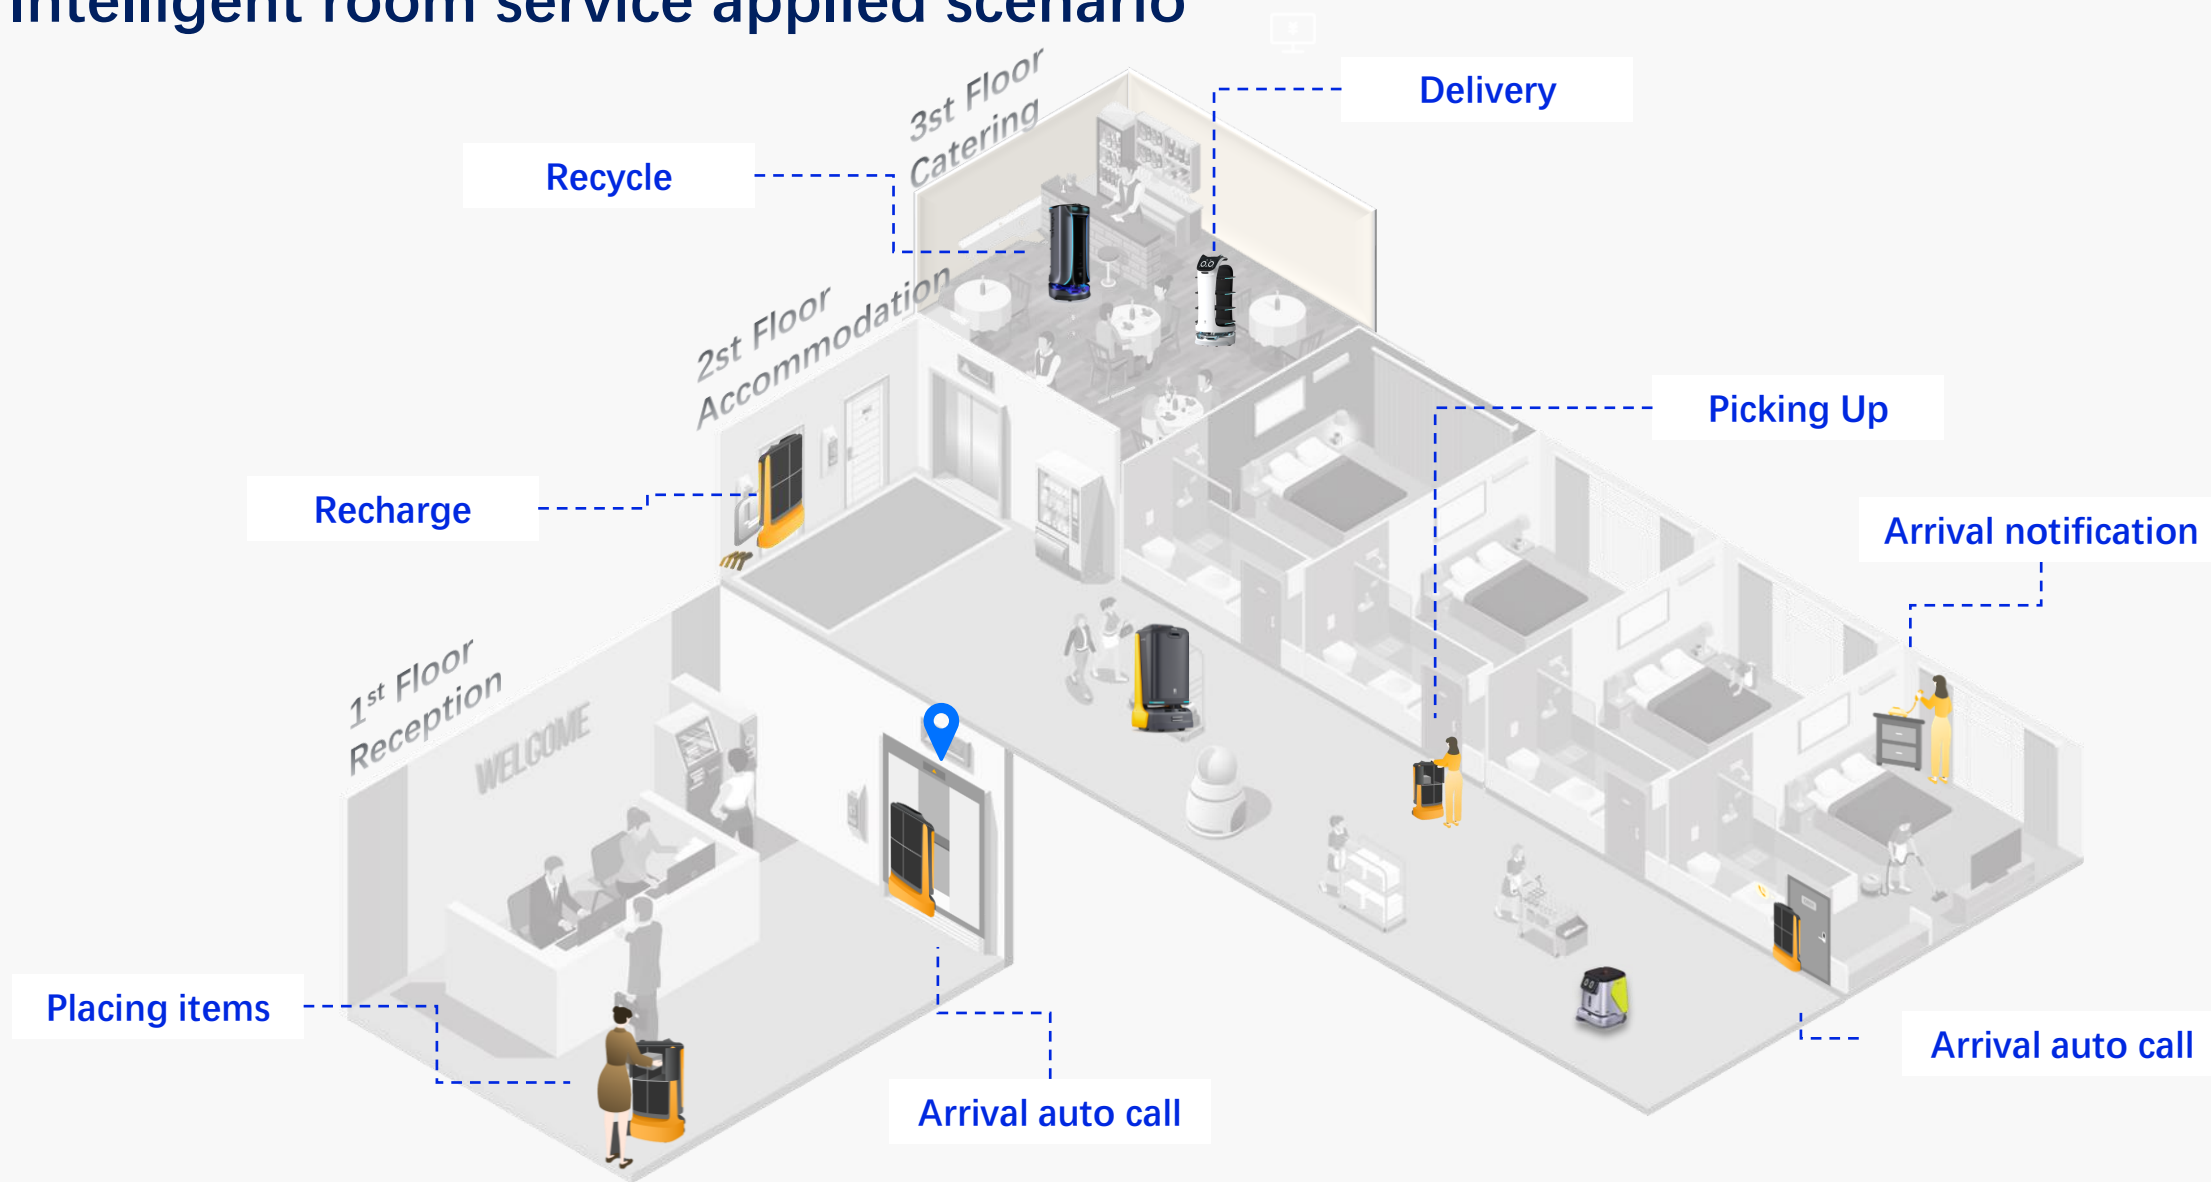

22375

Exposure area of mobile advertising is over 22375m2 per robot per day

Scenario scheme 2: Hotel room service

Intelligent room service applied scenario

Intelligent room service applied scenario

01 Closed encryption hatch

Full of science and technology, the distribution process is safe and worry, and the distribution of goods is safe and assured

02 Automatic recharge

Supports automatic recharge without manual assistant, worrisome and efficiency, 7x24H unstop working

03 Cross-floor distribution

Through the connection with the elevator, access control, gate machine, to achieve cross-layer cross-domain distribution

FlashBot

Quick task responder

- Single multitasking
- Multi-iot approach
- Pass by 75CM guest corridors

Senior ambience maker

- Customized projection
- Connected Aromatherapy, atomizer, mobile atmosphere accentuated

SwiftBot

The new mode to find your room quickly

Chose your destination on FlashBot screen, FlashBot will lead customer the fastest way.

FlashBot can call the elevator before, so customer don't have to wait for elevator for a long time.

When FlashBot arrived at the destination room, FlashBot will announced arrival notifications by voice.

<https://drive.google.com/file/d/1Jxx6A8zf0nRRTfvCxhsJ9pgggqfC0HXwV/view?usp=sharing>

Intelligent room service Process

IoT Technology See FlashBot's Superpower

The IoT technology allows operating instructions to be transmitted between FlashBot and other devices in the building via a cloud-based network connection. This enables FlashBot to take elevators automatically for delivery across floors.

Move across the floors: Auto ride a elevator

3 types to connect elevator

➤ Hardware transformation

Upgrade the elevator and install the PUDU elevator control module .

➤ Elevator control Cloud

Elevator manufacturers provide API interface, PUDU development elevator control logic.

➤ Open API

PUDU provide API interface, Elevator manufacturers development robot control logic.

Video URL: https://drive.google.com/file/d/1EnjOtx2naATnZIGBgry_t8EHLUp_FvBe/view?usp=share_link

Intelligent notifications

Fixed point arrival, scheduled call

Telephone notifications

After the robot arrives at the target point, it will notify the robot of the arrival information by phone or SMS with the mobile phone number entered during delivery.

APP Real-time notification

Guests can place orders through the APP. when the robot arrived before the door, robot send task finished message to APP through the Internet. APP will remind guest its arrival.

Landline notification of arrival

A controller is installed in the hotel telephone system, and when the robot arrives at the target point, it will call the phone in the hotel room to announce its arrival

Human-Robot Collaboration: Driving Quality and Efficiency in Service

Hotel catering delivery scheme

Next task or go back to kitchen

Hotel catering recycle scheme

Multi-functional: 5 Modes Switchable with One Click

In order to adapt to different scenarios robot provides a variety of modes to choose from.

-  Remote call
-  Autonomous positioning navigation
-  IPX5 waterproof
-  60KG load capacity
-  Intelligent audio source tracking
-  Multiple modes
-  Contactless delivery
-  Digitized management
-  Changeable battery

Mode.1: Manual mode

Manually edit the tasks, can click the screen, or press the pause button to modify the tasks at any time.

Mode.2: Go Dishwashing

Go back to the dishwashing area

Mode.3: Go standby point

Go back to standby point

Mode.4: Dish-return Mode

Go back to standby point

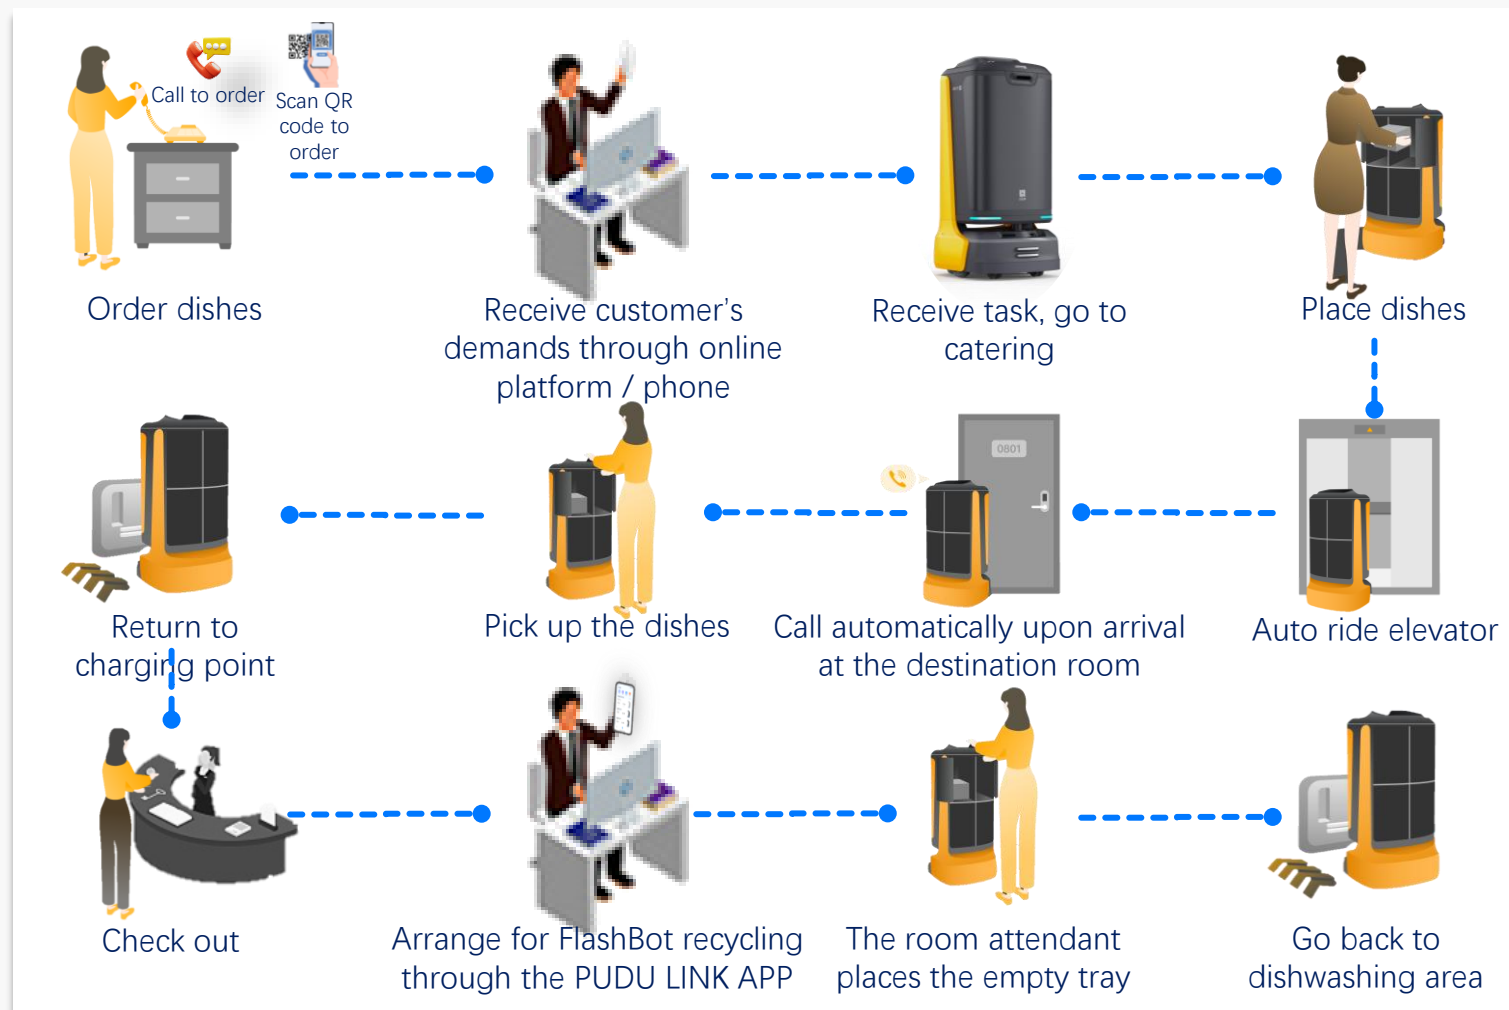

Mode.5: scheduled return

Select an automatic return time, and the robot will go back

Hotel room catering delivery scheme

Cross-floor catering delivery

7*24h room catering service

Eat whenever you want

The modular body of FlashBot enables all kinds of meals to be classified and stored, and meals can be delivered to customers at the fastest speed through communication with turnstile, gate, elevator, telephone, and various IoT devices.

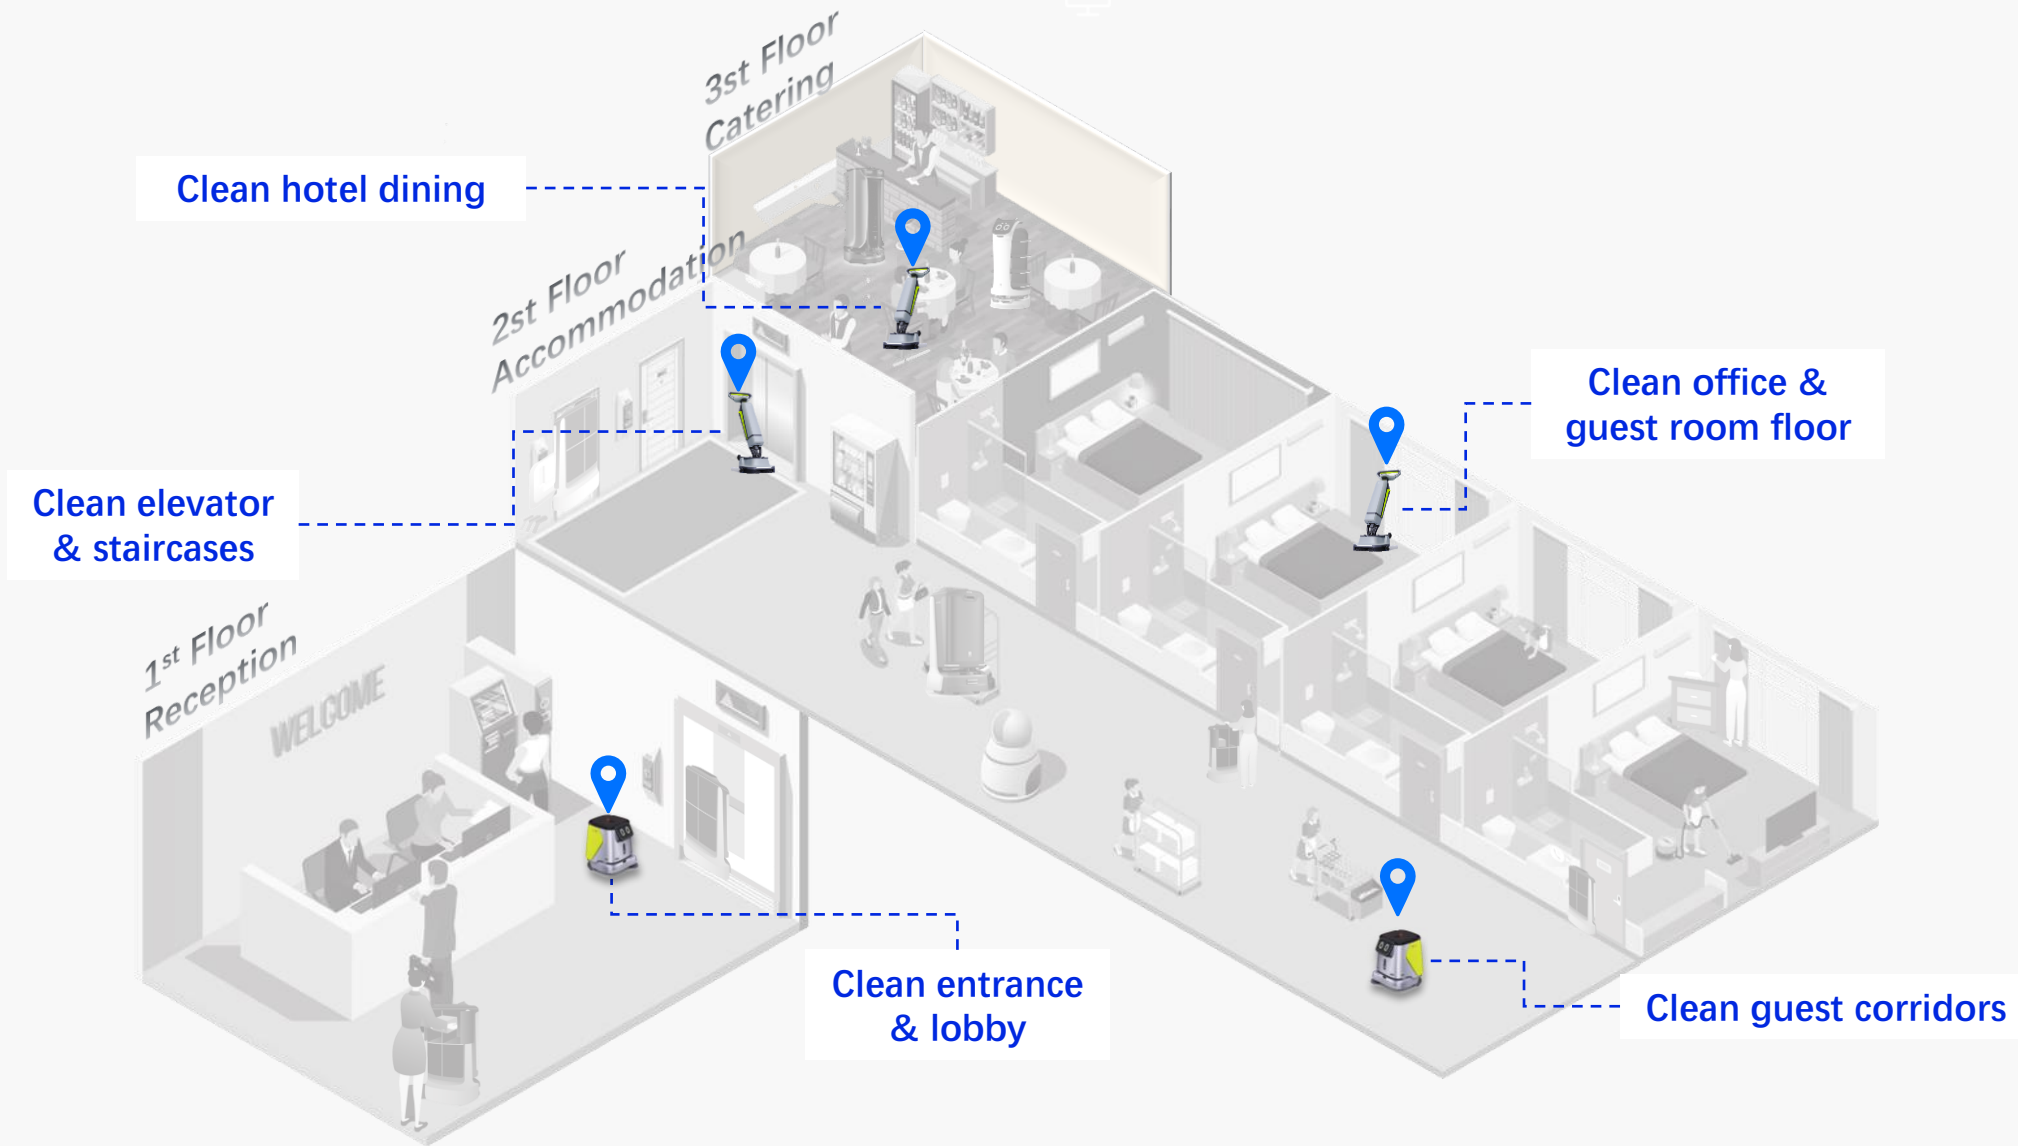

Enjoy the freshest food in your room

Scenario scheme 4: Hotel cleaning service

Hotel public floor area cleaning schedule

 Location	Entrance & Lobby	Elevators & Staircases	Guest corridors	Dining area	Office area & Guest room
 Job duties	Carpeted should be vacuum to remove dust & grits; Hard floor should be mopped.	Clean the dust at the skirting; Carpeted should be vacuum to remove dust & grits; Hard flooring should be suctioned cleaned and then damp mopped.	Many hotel's corridors are fully carpeted. Carpets should be vacuum and shampooed;	Sweep and mop the floor before event. If the area is carpets should be vacuumed.	Sweep and mop the floor. If the area is carpets should be vacuumed.
 Frequency	Carpet: once a day; Hard floor: every 2 hours	Skirting dust: Weekly cleaning; Carpets & Hard floor staircase: Daily cleaning	Skirting dust: Weekly cleaning; Carpets & Hard floor staircase: Daily cleaning	Sweep: Twice a day; Mop: 6 times a day	Sweep & Mop: Once a day; Vacuuming: Once a day

Intelligent hotel cleaning service applied scenario

Two types of cleaning robot, Full scene coverage

PUDU CC1

Scumming & Sweeping &
Vacuuming & Mopping 4 in 1

Suitable for wide ground

- Hard floor (such as tile, pvc floor, etc.)
- Short wool carpet
- Hard floor (e.g. marble floor)

**Multi-Machine
Intelligent Scheduling**

Systematic operation of robots in
office buildings and residences

Versatile Cleaning

Modular Component Design
Accessories such as side brush, roller
brush, squeegee, and mopping
sweeper can be loaded and unloaded
within 1 minute)

Suit Various Floor Types

Suitable for both hard floors and soft
carpets

**5h Continuous
Scrubbing**

Extra-long run-time for cleaning

Digital Cleaning

Cleaning results are clearly visible in
the automatically generated reports

Fit Corners Perfectly

Cleans every corner

Auto Recharging & Automatic Water Addition & Drainage

No manual intervention worry-free and labor-saving

PUDU SH1

Vacuuming & Brushing &
Watering 3 in 1

Suitable for narrow ground

- Hard floor (such as tile, pvc floor, etc.)
- Hard floor (e.g. marble floor)

**350rpm Brush Speed
22kg Brush Pressure**

Accelerates the elimination of tough
stains, leaving the floor sparkling
clean.

**12000pa Strong
Suction Power**

Avoiding secondary pollution and
delivering a great cleaning result.

Power-assist System

The self-propelled design drives the
SH1 forward, making floor cleaning
effortless.

Single-handed Control

The SH1 can be easily controlled with
one or both hand, providing
ergonomics and a light weight feel to
your arms during use.

**Easily Transport to
multiple locations**

Its exceptional maneuverability and
portability make it ideal for mobility
cleaning.

**Quick disassembly
Easy maintenance**

Solution & recovery water tank,
battery, brushes, squeegee

Light Strips Detection

The LED light strips highlight stains
hidden in dark areas like wall
corners and spaces
under the table.

Fit Corners Perfectly

It can clean the tight path of 44cm
width and a low space of less than
10cm height

7*24h Automate cleaning tasks

Man-robot cooperation , More efficiency

4: 00-5: 00
Entrance & Lobby

- ✓ Sweeping
- ✓ Vacuuming carpets

Cleaning : Automated crossing-floors cleaning

An intelligent IoT system makes it easy to connect **elevators**、**turnstiles**、**entrance guards** , etc. , enabling automatic elevator and entrance guard access, auto-calling of elevators, crossing-floors cleaning and autonomous return trips.

Solve crossing-floors cleaning issues , combine with charge station and work station , Realize 24H fully unmanned operation, and greatly improve the utilization rate of robots in hotel scenes, maximize the efficiency of cleaning robots.

Elevator

Entrance guard

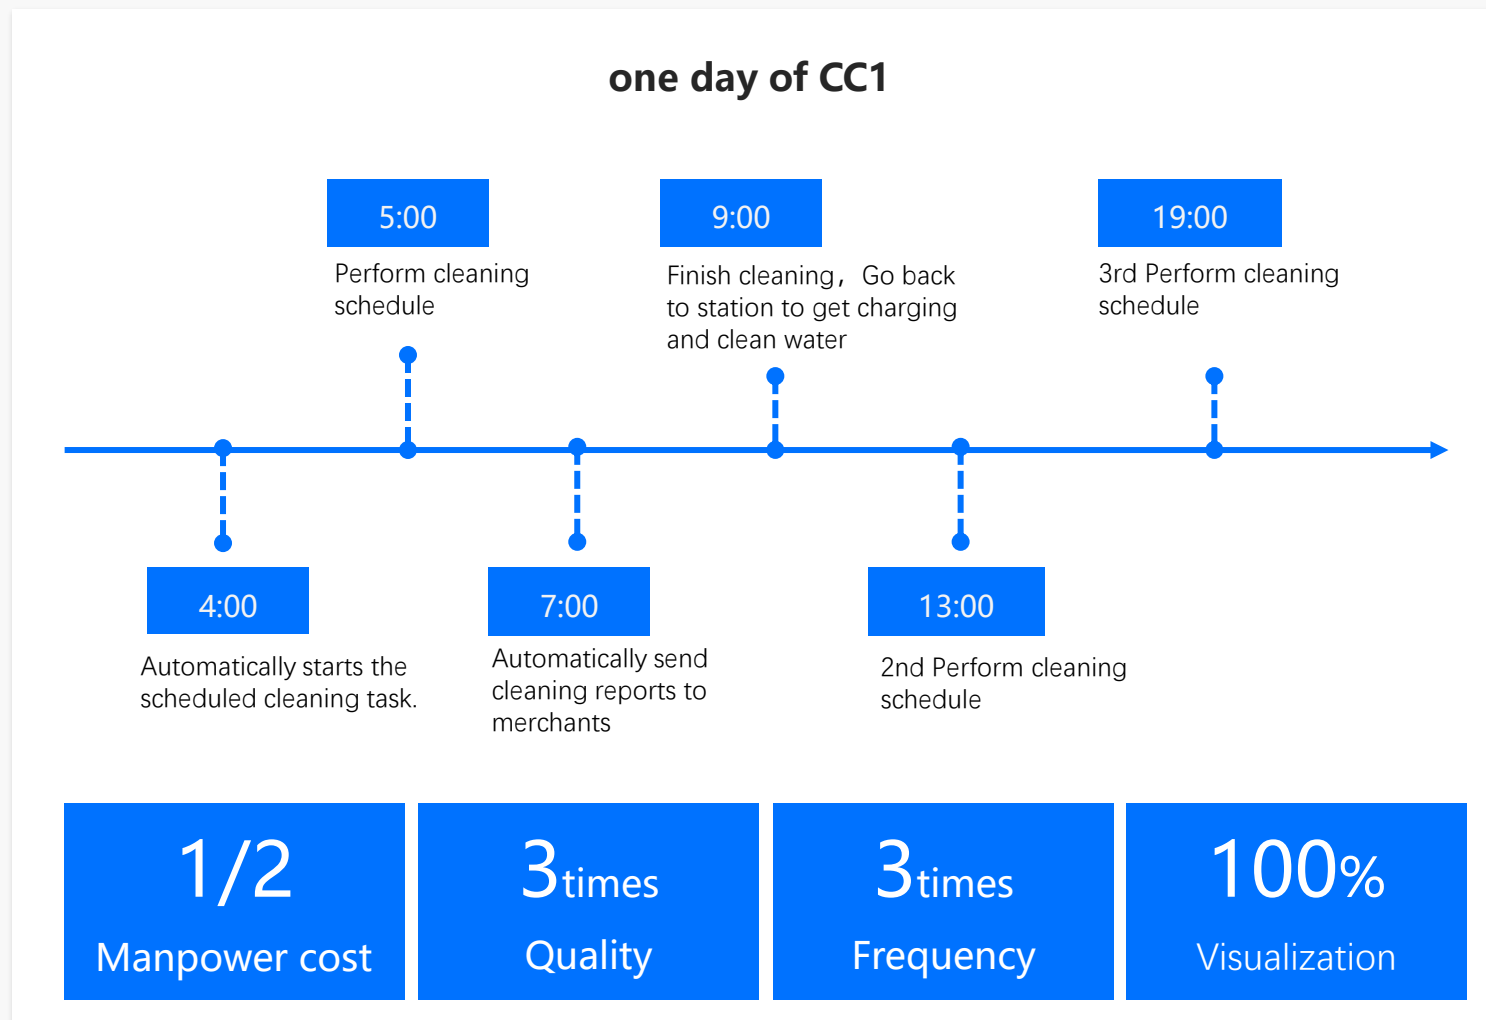

Turnstile

Cleaning : 7*24 hours task schedule , fully automatic

- ✓ Save manpower、time、 money
- ✓ One machine, multiple cleaning modes, suitable for multiple scenarios.
- ✓ 24-hour operation, fully automatic
- ✓ Simple, user-friendly, reliable, and stable
- ✓ Check the machine status at any time
- ✓ Presentation of cleaning reports

Cleaning : Automated crossing-floors cleaning

Digital Platform

Real-time synchronization of cleaning data, display of cleaning duration, area, etc., self-generated cleaning reports, and clear cleaning results

Other scenarios: IoT

Restaurant Management System

Online order system

KDS system

Cashier system

Hotel Management System

Integration mode

android 
PUDU OS

 **Bluetooth**

 **LoRaWAN**[®]

 Scan QR code to order, robot receipt signals wirelessly.

 Connect with all restaurant system and enclose catering work process automatically.

 Through various technologies such as API, SDK, and Android, make all-online a reality.

 Interconnection ,
More than imagine
.....

Successful Cases

- Successful case : Junyi Hotel
- Successful case : O3 Restaurant & Bar

Value Summary

Increase sales revenue

Robots can broadcast hotel services and promotion products to guests precisely, increasing sales and customer satisfaction.

Respond quickly to customer needs

Customer proposed room service requirements , such as : things delivery and foods delivery. Robot always be the 1st came to you.

Improve customer dining satisfaction

Reduce direct contact with customers during meal delivery, and lower the risk of bacterial transmission.

Decrease cleaning workload

Robots help cleaners free themselves from tedious, repetitive cleaning work and let the manpower to where it is really needed.

Optimize work content configuration

Man-machine collaboration, the tedious, repetitive, low-skill work to be completed by robots, optimize the staffing of each position, effectively save labor costs.

Enhance the core competitiveness of differentiation

Digital management, remote real-time monitoring. Different from traditional hotel services to form brand differentiation.

Successful case : Junyi Hotel

Number of floors : 27

Number of restaurant : 3

Number of rooms : 376

Conference room : 1

8.0

Room score has increased 0.1

8.5

Cleanliness score has increased 0.6

Improved brand image

Hotels using FlashBot can present a modern and intelligent image, enhancing brand image and attractiveness.

Improved management efficiency

FlashBot assist hotels in collecting & analyzing customer data, improving management efficiency and decision-making ability..

Increased customer consumption experience

FlashBot can provide personalized service and information to guests, making them feel more cared for. It could increase online website rating constantly.

Successful case : O3 Restaurant & Bar

O³EAT O3 Restaurant & Bar

PUDU Introduction

PUDU Introduction

Pudu Robotics

In 2016, Pudu Technology was founded in Shenzhen as a national high-tech enterprise that specializes in research, design, production, and sales of commercial service robots. After seven years of development, Pudu Technology has established hundreds of service points worldwide, with business in over 60 countries and regions, delivering more than 56,000 units. It has become a leader in the field of commercial service robots globally. In the age of intelligence, Pudu Technology will continue to uphold the "inventor's spirit" and solidify its technology, refine its products, create truly useful robot products, and enhance the efficiency of human production and life.

* Relevant statistics as of December 2022

Mission
